FINANCE ANALYTICAL DASHBOARD

Sep 2023 - Oct 2023

- Collected, cleaned, and visualized diverse financial data.
- Conducted rigorous data cleaning for accuracy.
- Developed interactive visualizations using Power BI tools.
- Achieved optimized data accuracy and consistency.
- Facilitated faster, data-driven decision-making.
- Empowered finance professionals to respond swiftly to market trends.
- Enhanced efficiency of financial analysis via user-friendly visual reports.

Tools Used: Power BI

Link: <https://github.com/praga6802/Financial-Analysis>

TEXTILE STORE ANNUAL REPORT

Sep 2023 - Oct 2023

- Assist store owners and managers in data-driven decisions for comprehensive analysis of textile store performance.
- Provide detailed insights into sales, inventory, and customer data operations.
- Increase profitability and enhance customer satisfaction through informed decision-making based on data analysis.

Tools Used: Microsoft Excel

TOURS AND TRAVEL MANAGEMENT SYSTEM

Sep 2023 - Oct 2023

- Aim: Showcase India's excursions and sights, offering diverse packages based on criteria like educational or orientation tours.
- Website Features:
 - Display of multiple packages categorized by various criteria.
 - User login page for package bookings.
 - Admin page for managing user requests.
- Functionalities:
 - User Interface: Provides package options based on user preferences.
 - Booking System: Allows users to book packages via a dedicated login page.
 - Admin Management: Enables administrators to oversee and manage user requests.

Tools Used: HTML, CSS, and MYSQL
