

PRAGADEESWARAN SEKAR

Java Backend Developer | Spring Boot | REST API | MySQL

Bengaluru, India • +91-8220309750 • pragadeeswaran6802@gmail.com • linkedin.com/praga06 • github.com/praga6802

Professional Summary

Entry-level Application Support Engineer with strong knowledge of Core Java, SQL, and backend technologies including Spring Boot and Hibernate. Skilled in troubleshooting, debugging, and functional testing, with experience in analyzing application issues using OOP principles. Passionate about ensuring application stability, resolving production issues, and delivering reliable software support solutions.

Technical Skills

Programming & Backend: Java, OOP, Collections, Exception Handling, Java 8, Lambda Expressions, Streams

Database & Querying: MySQL, CRUD, Joins, Constraints, Aggregate Functions, Subqueries

Frameworks: JDBC, Spring Boot, Spring MVC, Spring Data JPA, Hibernate

Web & APIs: RESTful APIs, JSON, HTML, CSS, JavaScript, Postman

Tools & Version Control: Git, GitHub, IntelliJ IDEA, Eclipse, Maven, VS Code

Projects

Traveller's Pick – *Java, Spring Boot, REST API, MySQL, HTML, CSS, JavaScript* **August 2025 – December 2025**

- Enhanced a full-stack tour booking application with secure login, package booking, and admin management features, serving 500+ users
- Built 10+ RESTful APIs integrated with MySQL to manage 500+ bookings and package records, improving data retrieval speed by 30%.
- Enabled email notifications, reducing manual follow-ups by 40% and improving user engagement.
- Created responsive UI components and admin reports, improving admin efficiency by 25% and enhancing overall user experience.

Smart Job Portal System – *Java, Spring Boot, REST API, MySQL* **September 2025 – November 2025**

- Expanded backend to support 3 user roles (admin, company, user), improving job posting and application processing efficiency by 35%.
- Configured Spring Security for role-based authentication, reducing unauthorized access incidents to 0% across modules.
- Designed 10+ RESTful APIs and validated endpoints with Postman, ensuring 99% API reliability and clean architecture compliance.
- Optimized backend design using Spring Boot and OOP principles, improving server response time by 20%.

Vehicle Rental Management System – *Core Java, Object Oriented Programming* **April 2025 – June 2025**

- Built a console-based Vehicle Rental Management System supporting bike, car, and truck bookings with license verification for 200+ users.
- Implemented rental processing to reduce manual intervention by 50% and accelerate booking handling.
- Calculated dynamic rental charges and generated receipts automatically, improving billing accuracy by 100%.
- Applied OOP principles to create modular and maintainable code, reducing future development effort by 30%.

Certifications

- **Java Development with Spring Boot, JONI Software Solutions, 2025** - Developed backend modules and RESTful APIs using Java, and Spring Boot, incorporated with MySQL databases.
- **MySQL Database Management, JONI Software Solutions, 2025** - Learned advanced SQL concepts, including complex queries, joins, indexing, data cleaning, and database optimization techniques.

Education

Bachelor of Computer Applications **June 2020 – June 2023**

SASTRA Deemed to be University, Kumbakonam

CGPA: 7.4 / 10

Higher Secondary Course – Computer Science Stream

June 2018 – March 2020

Christ the King Matriculation Higher Secondary school, Kumbakonam

Percentage: 76%
