

PRAGADEESWARAN SEKAR

Java Backend Developer | Spring Boot | REST API | MySQL

Chennai, India • +91-8220309750 • pragadeeswaran6802@gmail.com • linkedin.com/praga06 • github.com/praga6802

Professional Summary

Java developer with strong knowledge of Core Java, SQL, and backend technologies including Spring Boot and Hibernate. Skilled in troubleshooting, debugging, and functional testing, with experience in analyzing application issues using OOP principles. Passionate about ensuring application stability, resolving production issues, and delivering reliable software support solutions.

Technical Skills

Programming & Backend: Java, OOP, Collections, Exception Handling, Java 8, Lambda Expressions, Streams

Database & Querying: MySQL, CRUD, Joins, Constraints, Aggregate Functions, Subqueries

Frameworks: JDBC, Spring Boot, Spring MVC, Spring Data JPA, Hibernate

Web & APIs: RESTful APIs, JSON, HTML, CSS, JavaScript, Postman

Tools & Version Control: Git, GitHub, IntelliJ IDEA, Eclipse, Maven, VS Code

Projects

Smart Job Portal System – *Java, Spring Boot, Spring Security, REST API, MySQL* **November 2025 – Present**

- Developed a RESTful backend using Spring Boot with role-based access control and JWT authentication via Spring Security.
- Designed and built 10+ REST APIs for job posting, application processing, resume management, and approval workflows.
- Integrated MySQL with Spring Data JPA following layered architecture for clean and maintainable code.
- Implemented input validation, global exception handling, and API testing using Postman to ensure secure and reliable backend performance.

Tour Booking System – *Java, Spring Boot, Spring Security, REST API, MySQL* **August 2025 – December 2025**

- Developed a full-stack booking application with secure authentication, package management, and admin features using Spring Boot and Spring Security.
- Designed and implemented 10+ RESTful APIs integrated with MySQL to handle booking operations, user data, and package records.
- Implemented email notification workflows for booking confirmation, cancellation, and user registration.
- Built responsive UI components and admin dashboards while ensuring proper backend validation and optimized data retrieval.

Vehicle Rental Management System – *Core Java, Object Oriented Programming* **April 2025 – June 2025**

- Developed a console-based backend application using Core Java and OOP principles to manage bike, car, and truck rental operations.
- Implemented booking workflows with license verification, rental processing, and dynamic charge calculation logic.
- Automated receipt generation and applied input validation with proper exception handling to ensure reliable processing.
- Designed modular and maintainable code structure following object-oriented design principles.

Certifications

- **Java Development with Spring Boot, JONI Software Solutions, 2025** - Developed backend modules and RESTful APIs using Java, and Spring Boot, incorporated with MySQL databases.
- **MySQL Database Management, JONI Software Solutions, 2025** - Learned advanced SQL concepts, including complex queries, joins, indexing, data cleaning, and database optimization techniques.

Education

Bachelor of Computer Applications **June 2020 – June 2023**

SASTRA Deemed to be University, Kumbakonam

CGPA: 7.4 / 10

Higher Secondary Course – Computer Science Stream

June 2018 – March 2020

Christ the King Matriculation Higher Secondary school, Kumbakonam

Percentage: 76%
